**Manufacturer :**

**SOGEVA S.r.l.**  
VIA PRIMO MAGGIO TRAV 3 NR 18  
25035 OSPITALETTO (BS)

**Device :**

*description :*

Medical Device non invasive, class I, as per European Directive 93/42/CEE and further modifications and integrations (i.e.: European Directive 2007/47/CE).

*« some rules of norm nr I are not applicable »*

*Product's description*

Natural latex and biodegradable protection barrier allows to protect the surface of instruments daily used highly reducing bacterial invasion and organic substances. The extreme elasticity of latex makes our sheaths very versatile and they can be applied to instruments with different forms.

Available in blue colour universal type with inside and outside smooth surface.

*Use*

Cover for the surfaces of instruments daily used in dental laboratory.

*Shelf life*

Expiry is 3 years from production date if kept in a cool and dry place, far from sunlight, heat and humidity
