

## RUBBER DAM CLAMPS

REDUCE GLARE WITH SATIN STEEL®

How the best perform

# 48 WAYS TO INCREASE VISIBILITY

## FACT

Today's dental lighting is brighter and more intense than ever before. Yet most rubber dam clamps reduce visibility by reflecting this light back into your eyes, creating a blinding glare.

## CHALLENGE

Finding a rubber dam clamp that increases visibility and is available in a wide range of sizes and applications is often challenging.

## SOLUTION

Hu-Friedy's Satin Steel Rubber Dam Clamps offset bright clinical lighting. Hand-crafted to absorb and dissipate light instead of reflecting it back, these matte-finish rubber dam clamps are available in 48 sizes to help you perform at your best.

The result is clear, with Hu-Friedy's Satin Steel, you can experience a comfortable field of vision that's easier on the eyes.

*A complete line for anterior, premolar and molar applications*

## ANTERIOR RUBBER DAM CLAMPS

**00**  
RDCM00

R L

Flat jaws and high bow for small lower canines and first premolars.

**6**  
RDCM6

R L

Slightly offset jaws for labial caries on anterior teeth.

**9**  
RDCM9

R L

Offset flat jaws and stiff bow for anterior teeth.

**9S**  
RDCM9S

R L

Offset flat serrated jaws for anterior teeth.

**212**  
RDCM212

R L

Flat jaws for labial caries on anterior teeth.

**212SA**  
RDCM212SA

R L

Slightly offset staggered jaws for odd shaped anteriors.

## ACCESSORIES

Hu-Friedy also has a full range of accessories useful for rubber dam clamp applications including forceps, punches, frames, templates, and an organizing board (shown on right).

EIGHT PEGS SECURELY HOLD VARIOUS SIZED CLAMPS

How the best perform

## PREMOLAR RUBBER DAM CLAMPS

**0**  
RDCM0

Flat jaws and high bow for longer premolars.

Detailed description: This block shows the RDCM0 clamp. It includes a top view of the metal clamp with two circular openings, a side view showing a high, rounded bow, and a diagram of a dental arch with green dots representing teeth. The diagram is labeled 'R' for right and 'L' for left.

**1**  
RDCM1

Slightly festooned jaws for upper premolars.

Detailed description: This block shows the RDCM1 clamp. It includes a top view of the metal clamp with two circular openings, a side view showing a slightly curved bow, and a diagram of a dental arch with green dots representing teeth. The diagram is labeled 'R' for right and 'L' for left.

**1A**  
RDCM1A

Deeply festooned jaws for canines and premolars.

Detailed description: This block shows the RDCM1A clamp. It includes a top view of the metal clamp with two circular openings, a side view showing a deeply curved bow, and a diagram of a dental arch with green dots representing teeth. The diagram is labeled 'R' for right and 'L' for left.

**2**  
RDCM2

Flat jaws for premolars.

Detailed description: This block shows the RDCM2 clamp. It includes a top view of the metal clamp with two circular openings, a side view showing a flat bow, and a diagram of a dental arch with green dots representing teeth. The diagram is labeled 'R' for right and 'L' for left.

**2A**  
RDCM2A

Flat jaws for larger premolars.

Detailed description: This block shows the RDCM2A clamp. It includes a top view of the metal clamp with two circular openings, a side view showing a flat bow, and a diagram of a dental arch with green dots representing teeth. The diagram is labeled 'R' for right and 'L' for left.

**2AS**  
RDCM2AS

Flat serrated jaws for larger premolars.

Detailed description: This block shows the RDCM2AS clamp. It includes a top view of the metal clamp with two circular openings, a side view showing a flat bow with serrated edges, and a diagram of a dental arch with green dots representing teeth. The diagram is labeled 'R' for right and 'L' for left.

**W2**  
RDCMW2

Flat jaws for premolars.

Detailed description: This block shows the RDCMW2 clamp. It includes a top view of the metal clamp with two circular openings, a side view showing a flat bow, and a diagram of a dental arch with green dots representing teeth. The diagram is labeled 'R' for right and 'L' for left.

**27N**  
RDCM27N

Slightly festooned jaws for premolars.

Detailed description: This block shows the RDCM27N clamp. It includes a top view of the metal clamp with two circular openings, a side view showing a slightly curved bow, and a diagram of a dental arch with green dots representing teeth. The diagram is labeled 'R' for right and 'L' for left.

**29**  
RDCM29

Flat jaws for lower premolars.

Detailed description: This block shows the RDCM29 clamp. It includes a top view of the metal clamp with two circular openings, a side view showing a flat bow, and a diagram of a dental arch with green dots representing teeth. The diagram is labeled 'R' for right and 'L' for left.

**209**  
RDCM209

Small, flat jaws with stiff bow for lower premolars.

Detailed description: This block shows the RDCM209 clamp. It includes a top view of the metal clamp with two circular openings, a side view showing a flat bow with a stiff appearance, and a diagram of a dental arch with green dots representing teeth. The diagram is labeled 'R' for right and 'L' for left.

# MOLAR RUBBER DAM CLAMPS (GENERAL)

Deeply festooned four-point jaws for molars.

Deeply festooned jaws and extended bow for distal access to molars.

Slightly festooned jaws for molars.

Flat jaws designed for small upper left and lower right molars; paired with RDCM11.

Flat jaws designed for small upper right and lower left molars; paired with RDCM10.

Deeply festooned jaws for partially erupted or irregularly shaped molars.

Deeply festooned jaws for partially erupted or irregularly shaped molars; larger than RDCM14.

Deeply festooned jaws for partially erupted or irregularly shaped molars.

Flat jaws and stiff bow for molars.

Flat jaws for upper right and lower left molars; paired with RDCM25.

Flat jaws for upper left and lower right molars; paired with RDCM24.

Flat jaws for large molars.

Slightly festooned jaws for large molars.

Slightly festooned serrated jaws for large partially erupted or irregularly shaped molars.

## LOWER MOLAR RUBBER DAM CLAMPS

## RUBBER DAM KIT (RDKIT)

Basic items needed for rubber dam procedures conveniently packaged in a kit (also available individually).

DESCRIPTION	PART CODE
Rubber Dam Clamp Forceps	RDF
Rubber Dam Punch	RDP
Rubber Dam Frame-Adult	RDAF6
Universal Rubber Dam Template	RDTUNIV
FDI Rubber Dam Template	RDTFDI
Rubber Dam Clamp Organizing Board	RDCOB
#0 Satin Steel Rubber Dam Clamp	RDCM0
#1 Satin Steel Rubber Dam Clamp	RDCM1
#2 Satin Steel Rubber Dam Clamp	RDCM2
#7 Satin Steel Rubber Dam Clamp	RDCM7
#8 Satin Steel Rubber Dam Clamp	RDCM8
#8A Satin Steel Rubber Dam Clamp	RDCM8A
#14A Satin Steel Rubber Dam Clamp	RDCM14A
#212 Satin Steel Rubber Dam Clamp	RDCM212

## KITS AND SETS

## RUBBER DAM CLAMP SET (RDCSET7)

A popular set for basic coverage. Other clamp sets also available.

DESCRIPTION	PART CODE
#00 Satin Steel Rubber Dam Clamp	RDCM00
#2 Satin Steel Rubber Dam Clamp	RDCM2
#7 Satin Steel Rubber Dam Clamp	RDCM7
#8 Satin Steel Rubber Dam Clamp	RDCM8
#8A Satin Steel Rubber Dam Clamp	RDCM8A
#9 Satin Steel Rubber Dam Clamp	RDCM9
#14A Satin Steel Rubber Dam Clamp	RDCM14A
