

## PROCLINIC EXPERT WHITENING

The WPA system  
(Whitening Process  
Accelerators)  
from Proclinic Expert  
Whitening accelerates and  
enhances the whitening  
process, achieving results in  
one single session.

It's also the first to incorporate  
aloe vera, which provides a  
desensitizing action, and mint,  
which gives a great  
feeling of freshness.

WHITENING  
IN THE HANDS  
OF THE EXPERTS

#### IN-OFFICE PROFESSIONAL TREATMENT

In just one session you can show off your best smile in the hands of a professional odontologist.

Pain-free and without affecting your enamel, as the whitening is completely harmless, teeth that have been darkened by age or the consumption of coffee, red wine, tobacco, etc. are whitened in just 30 minutes.

*White and healthy teeth!*

#### PERSONALISED TREATMENT AT HOME

You can complement your whitening in the clinic with simple sessions that you can do from the comfort of your own home at night.

Your dentist will provide you with a personalised treatment to follow, so that you can show off and keep your smile white for longer.

The **Proclinic Expert** whitening treatment is only supplied in clinics by professional odontologists, and it is the only one in the market to incorporate the advanced technology of light refraction through **WPA micro-crystals** guaranteeing a greater success of the **30-minute** treatment.

Put your trust in a professional and Proclinic Expert Whitening to achieve the whitest smile.

*A new smile in 30 minutes!*

#### DAILY MAINTENANCE OF YOUR TEETH

The easiest and most comfortable way to keep your teeth white!

Use the Proclinic Expert Whitening Pen 1 to 3 times a day applying it directly to the teeth for 30 minutes, without having to use a guard.
